

इपोरवा र्हेयुत्तल

इपोरवा र्हेयुत्तल was born when a group of friends translated the energy they felt all around many pagan community fires into a deep and abiding spiritual harmony. Over the years the faces have changed, members have come and gone, but all have left their indelible spiritual footprint on the group.

Of the original group three still share their energy Kiki Harrington, Ric Nyer, and Kerri Hirsch-Upton. Madison Cansler, Laurel Eris and PJ Seale joined later and added their own unique stamp to the group's dynamics and our newest member Kira Lang has gifted us with translation of our sound into dance, adding even more depth to our performances. Every community fire, festival gathering and concert audience have helped us to achieve our unique acapella and percussive blend, a multi layered, deeply spiritual celebration of the Divine power all around us. The group has released seven cds' *I Am*, *Live at Turning of the Year 2002*, *PSG live 2004 and 2005*, *Roll of Thunder*, **इपोरवा र्हेयुत्तल Drums**, and *We are Light*. We are currently working on an eighth CD hopefully for release in 2012.

इपोरवा र्हेयुत्तल has performed several times for Musiphysical Productions in Atlanta as well as Chattanooga, Jacksonville, Greenville, Spartanburg, PSG, FPG, Phoenix Phyre, Dragon Hills, Gryphon's Nest and many more throughout the southeast. Their inspiring music has been featured on Witch Vox, Fellowship of the Earth, Circle of Souls, Goddess Internet radio and Pagans Tonight Internet radio.
